

## Presse Release

**WUHA presents "Caroline Extended Club Mix", another dance pop radio hit with influences from the 80s**

*Vienna, 30.April 2025*

The production team **WUHA** releases their latest song "Caroline Extended Club Mix" today. Musically, this song combines modern pop elements and drum loops with musical influences and sounds from legendary synths of the 80s.

### **The Story about „Caroline Extended Club Mix“**

What began as a teenage crush in Vienna's vibrant nightlife of the late '80s has transformed into a modern club track with international appeal. "Caroline", originally written in 1989, tells the story of an unspoken love that left a lasting impression on the artist. Inspired by fleeting encounters in the iconic Club Poeblo, the song quickly became a favorite within his band Staccato and even gained attention at the Austrian popodrom band competition.

Fast forward to 2024: A week in COVID quarantine became the unexpected spark to revisit the song. With a fresh production and a feature by Mark Voc, "Caroline" was reborn on Spotify — receiving unexpected acclaim from audiences and radio stations across France, Italy, the UK, and the USA.

Now, the story continues with a powerful *Extended Club Mix* designed for the dancefloor — breathing new life into a memory that never faded.

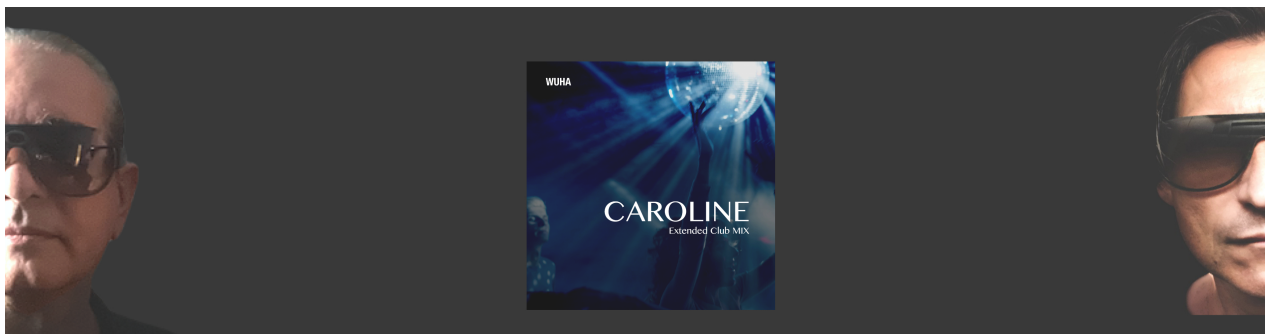

"Caroline" is more than just a track — it's a piece of the past, reimagined through the sound of today.

### **Short**

What began as a teenage crush in Vienna's vibrant nightlife of the late '80s has transformed into a modern club track with international appeal. "Caroline", originally written in 1989, tells the story of an unspoken love that left a lasting impression on the artist. With a fresh production, "Caroline" was reborn on Spotify — receiving unexpected acclaim from audiences and radio stations across France, Italy, the UK, and the USA. Now, the story continues with a powerful Extended Club Mix .

### **Short**

What began as a teenage crush in Vienna's vibrant nightlife of the late '80s has transformed into a modern club track. In 2024, I reworked the song. After great Spotify success, with global radio support, we decided to release an Extended Club Mix.

## About WUHA

### Short Bio

WUHA is a producer team based in Vienna. With a deep understanding of music production and a feel for catchy melodies and sounds, WUHA enriches the Austrian and international music scene as a significant player.

### Long Bio

Singer, songwriter and producer from Vienna, Austria with a passion for music since the age of 6. I grew up in a family of musicians and played my first gigs with my father at the age of 6. He accompanied me on my musical career for over 30 years. During this time, I formed several bands and wrote a lot of songs. I played in band competitions and also won with my band Cinderella. We were allowed to produce the records 'Loving you' and 'to be a Star' with a producer. My professional career started with the Top40 commercial band „Broadway“. We toured in Austria, Germany and Switzerland.

Back in Vienna, I focussed more on music production and played, wrote and produced with several bands. The music career interrupted my entry into the film and television industry as a sound engineer and sound mixer.

Now, in 2025, it's time to produce the old songs properly again and bring them back to life. In new splendour and with new technology. AI technology included. Me and my team have a lot of plans for the near future
